

I am concerned about possible changes to FM radion in light of possible LPFM changes.

My family and I listen regularly to an FM station called K-Love which transmits nationally through an FM translator. We DO NOT WANT TO LOSE THIS STATION! K-Love is family radio and we have zero other good choices in our market. A commercial station which competes with K-Love here is leaving the air in 2 weeks. K-Love is non commercial and much better programming. Please find a way to accommodate K-Love even if you decide to change LPFM service domains. Hoping the FCC listens, Leslie Marquard, Glencoe, IL
